VOL. 2 NO. 6 NOV. - DEC. 1985

THE POWER OF LOVE

When you generate an act of loving in your body, a field is created. This field is transferred by an act of will from the initiator to the recipient. We can look on love as glue that holds matter in form. It has in it the element of consciousness and contains the program for the total well-being of an individual. This was fully understood and manifested by Jesus Christ. A question was given to him as to what was the primary law. He answered, "You shall love the Lord your God, with all your heart, with all your soul, with all your strength and with all your mind and your neighbor as yourself." [Luke, chapter 10, v. 25, The New American Bible]

In studying and meditating on the statements of Christ, we have a practical guideline for the conduct of our life. We must develop the art and science of knowing ourselves. From this knowledge we develop an awareness or love of self. In turn, we must emit and distribute this love to our fellow man, without distinction or limitation. This is the whole study of life itself. To give love, we empty self into a recipient. In that act of emptying this force, we in turn are filled with the love of God. So we, in loving, receive infinite love from God, the source of all energy. If we limit the act of loving, that limits us as well.

Working in a loving way with crystals facilitates the transfer of this charge, generated by mind. In this way it is totally harmless. The crystal will amplify the weak field we first generate. As we release this field with intention and breath, the field moves like a laser into the energy, or subtle body, of the recipient. They in turn can draw this energy into their body. This acts with their energy to bring their body into balance and form. When I love you, that act opens us both to a divine illumination. We can see beyond the body into the soul of this individual. We feel within us the beauty that resides in the body, mind and soul of the individual whom we are becoming one with. As we evolve in the practice of being loving individuals, we become conscious of the power and force that resides within each of us. When we love another person, a magnetic-like force is generated between the two individuals. They are drawn together as if pulled by this magnetic-like field. It is instinctive to embrace, to bring the two bodies together and be as one. In the work we are doing in the laboratory, we are striving to measure this force in water. Our continuing effort is to understand what these forces are and how they operate in nature. We are doing this by observing the structuring of water. This is accomplished by charging a crystal with thought and love, transferring this charge by a resonance process from the crystal to water which is being spun around the crystal in a clockwise direction. We complete this process by studying this water for the change in pH, conductivity, and it's ultraviolet spectra changes.

This was the third and final Joy Lake seminar of the year. Dr. Peter Guy Manners contributed his experiences of working with George De La Warr and operating the camera. Fran Farely gave a talk on her experience with the camera. The three of us attempted to produce a set of pictures on the Mark IV De La Warr camera, using Polaroid b/w and color film. We got a few streaks on a plate but nothing of significance. Many people in the audience felt the effects of working with this camera. It produced stomach aches and nausea. For this reason it was decided not to continue with the camera. The camera had never been used in a large group and we did not know how this field would be maintained to produce an image on the film plane. It was a pure experiment.

In dealing with thought and thought-form construction, the fields that build up in the group become very demanding at times. They require prayer and meditation to bring balance and stability to the group. Throughout our lives we repress patterns of thought and when exercises are given to come to grips with and release these incomplete patterns, these vibrations create in the room an enormous pulsating charge. This must be broken up and dissipated.

Diplomas were presented for completion of two and three sessions. Rev. Richard Hill and Alan Morvay have completed their examination for a Masters Certificate. Eunice Jantzen, Tom Jones, Cynthia Laughery, Clark Manning, Edward McClelland and Wynde Winston have completed three weeks. Sherry Abbott, Allachaquora, Vickie Davies, Melinda Dennis, Bill Hurley, Anne Komar, Helene Mellas, Evelyn Sharp and Fred Von Brinken have completed two weeks of the Joy Lake Masters Program.

ENGLAND [sponsored by Morland Beasley, 35 people attended]

A special seminar was given to radionic practitioners on The Therapeutic Use of Crystals on the advanced model of the Omega 5 machine. We had a group discussion on what really takes place when we obtain a "stick" on the rubbing plate of a radionic-type instrument. Transmitting color therapy with the crystal on the Omega 5 was demonstrated to the group.

BARBADOS [sponsored by Rita Livingston]

We met to find a common ground for sharing our skills in spiritual and technical fields, with developing countries, for the mutual good of all. We visited various sacred and cultural spots in an attempt to locate an international study/interaction center. The meeting ended in a state of flux, but we established new working relationships with people from many countries and above all the wonderful kindly people of Barbados.

LOS ANGELES [sponsored by Threshold]

Marcel was joined by two pioneering doctors and over 100 participants. Dr. Manners discussed Cymatics, the sounds of the bone, muscles and tissue. This new understanding of these harmonics relates to the research on sound and structuring of liquids. Peter Guy Manners, M.D. is a founder of this exciting new therapy. Dr. John Adams, M.D. told of his work with the crystal and acupuncture as they relate to modern medicine. Marcel spoke on the Power of Thought and worked with Dr. Adams on the Healing Power of the Crystal.

MY EXPERIENCES AT JOY LAKE by Augie Blume

I was very excited by the prospect of being able to attend the seminar on the therapeutic use of crystals, by Marcel Vogel, held at Joy Lake. I wanted to be able to have a clearer understanding of how to use my four-sided healing crystal. On arriving, I was assigned by Alan Morvay to a yurt. I couldn't have asked for a better group of "bunk mates".

The experience of living in a yurt with three others, turned out to be a great one. I met "Kas" (Casimir) Bernard from Tucson and felt an immediate soul connection from somewhere back in time. Ray Danehey turned out to be a very soulful poet, and Bernard Burry is a very humorous professional photographer.

Each day was filled with the deep pleasure of meeting many new-found friends from all over the country. We attended morning, afternoon, and evening sessions. Joy Lake is situated about 20 miles south of Reno, in beautiful, rugged, mountainous country. As at every large gathering, [there were over 60 people there] you don't have a chance to get to know everyone as well as you would like. The group energy was so high

that week, that you had the feeling you knew everyone quite well. I did, however, spend quality time with a few. Anne Komar from Omaha, is a beautiful young lady with all the qualities of a real healer. At one point she cleared out some of the toxins I was carrying. Thank you Annie! Margie Tice from Charlotte, North Carolina, is another wonderful healing lady. She and Anne have both written to me and sent information on how well they are doing. I was much impressed with the teaching of Leonard Laskow, a rare combination of medical doctor and true healer.

Ray. Richard Hill has a great sense of humor. His work on the final day morning with Jennifer from New Orleans was astonishing. There were so many other wonderful people.

I can't begin to express the love and gratitude I feel toward Marcel. He is such a magnificent human being and teacher. I have learned so much from him over the past few years, and the week long seminar helped me more fully understand my actual ability to work with my crystal. It is only by my doing an actual practice that I can convince myself that what I am doing is real. I needed the feedback from both Marcel and many of the others at Joy Lake. I know I met some people while there who will become my lifelong friends. Thank you, with Love, Augie Blume

PROFILES

Jackie Field is a professional at organizing an office. We had been fighting to keep our heads above water, as most new ventures do, especially non-profit "organizations". The nature of this kind of structure is to be understaffed.....behind in the paperwork and the bookkeeping. Jackie is no newcomer to start-up offices and has been in this same type of overwhelming situation before. Every time it looks like you are almost out from under, some new deluge occurs and you go back to what Jackie calls "Blitzing". This means long hours, after every one else has gone home, of intense concentration. We know you will appreciate her work. Few of you will see what is a rather heroic effort to get what you want to you, as soon as possible, with the minimum of confusion.

EXPERIMENT #18 PSYCHOTRONIC DEVICE FOR MEASURING THE FIELDS EMANATING FROM THE CRYSTAL

A very simple and practical device can be made by cutting out a 7 1/2" circle and cut a "V" out of the circle so that it will form into a cone. Tape the cone together. At the joint attach a strip of one quarter inch magnetic recording tape with rubber cement. Knot fine nylon thread and pass it through the hole in the center. Hang this in an area that has no drafts or air flow. This object now can be moved and caused to spin by staring at the magnetic strip. You can compare the difference, in staring with your eyes and using a healing, meditation or natural crystal to focus your energy onto the magnetic strip. Try up and down motions, steady state, and oscillating fields. When the charge is working, the cone will start to vibrate and then start spinning. You can place this cone over a sheet of paper on which you record the degrees of the compass. Place a small marker on the cone so you can measure the axial rotation of the cone. Try deep breathing exercise plus pulsed breath: This will give a very simple and practical indicator of the forces taking place between you and the crystal. Start a notebook and record your results.

EXPERIMENT #19 MODIFY THE TASTE OF FOODS WITH THE HEALING CRYSTAL

WATER - Take two glasses of water and put them into plastic cups. Use one as control. The other put on a table and bring the healing crystal over the top of the water with the operating tip facing the water. Focus on the crystal and visualize the water being free of all impurities, especially chlorine and other unwanted salts. Pulse the breath and repeat this three times. Taste the control water and then taste the water that has been healed. When it works the water will taste softer be more palatable. You can also mount a crystal over the water and play various music to it. Certain selections will improve the taste, others will do nothing. Test this for yourself and give us a report on your findings.

FRUIT - A. Apples, take a ripe apple and cut it in half. Do the same with the apple halves as you did with the water. You will see the rapid oxydation that takes place on the control half of the apple. The half that is healed will slow, two to three fold, the browning rate. Taste each half and compare the results that you are obtaining. Do the same with B. Oranges, C. Bananas, D. Peaches, etc.

Dr. Laskow, in doing this experiment, demonstrated the change in color of an orange during the treatment of a whole orange. This was viewed by many people who attended the class at Joy Lake.

THE CRYSTAL HEALING INSTRUCTORS Leonard Laskow, M.D. 415/381-5000; John Adams, M.D. 213/698-7919; Dr. Rozanne Bazinet, PhD 716/283-0089 in Niagara Falls; Robert Fritchie, 714/596-0970 [Bob, who had a great deal to do with the development of P.R.I. as a working board member, has recently moved to Southern California and is now available.] Marcel Vogel is already booked for most of his time next year, see above.

HEALING AND MEDITATION CRYSTALS

The cut Crystals available through Pyschic Research are as follows:

<u>Order #</u>	<u>Crystal</u>	<u>PRICE</u>
MC4	MEDITATION - 4 SIDED	\$150.00
MC6	MEDITATION - 6 SIDED	\$250.00
HC4	HEALING - 4 SIDED	\$400.00
HC6	HEALING - 6 SIDED	\$500.00
HC8	HEALING - 8 SIDED	\$600.00

- U.S., Canada and Mexico add postage and handling of \$5.00 for 1 Crystal, plus \$2.50 for each additional Crystal ordered. Other countries add \$10.00 to ship SURFACE, add \$20.00 to ship AIR.
- California residents add 7% sales tax.

When you order a crystal, complete the Order Form indicating type of crystal, it will be used for, and enclose a check or money order for the cost. Love and care are put into the cutting of the crystals. The quality quartz crystal that we use is becoming more difficult to locate because of increased demand. Expect 4 to 6 weeks delivery under normal circumstances and 6 to 12 weeks delivery when raw crystal is on back order.

We would like you to consider and appreciate the value of the crystal you are ordering and make use of it in your life with love. You might want to attend one of Marcel's workshops on the use of crystals or if this is not possible, there will be a video cassette course available in November. With your crystal order you will receive an audio cassette tape that gives instructions on how to use the crystal.

If you break the tip of your crystal, we can retune (recut) it for you. The cost would depend on the extent of damage to be repaired. (\$25.00 to \$100.00)

CRYSTAL HEALERS AND INSTRUCTORS AVAILABLE FOR TREATMENTS AND SEMINARS

If you wish healing treatments or a speaker for seminars on the use of the healing crystal, contact one of the following. Marcel is now devoting the majority of his time to research. (* Available for healing, ** Available for healing and speaking).

- ** John Adams, M.D. (So. California only) Whittier, CA (213) 698-7919
- ** Rozanne Bazinet, Ph.D. (Psychologist) Niagra Falls, NY (716) 283-0089
- ** Robert Fritchie, (So. California) La Verne, CA (714) 596-0970
- ** Leonard Laskow, M.D., Mill Valley, CA (415) 381-5000

PERKINS - OMEGA 4 METRONIC MACHINE

The Omega 4 has been laboratory tested and found to be operational. It measures the charge in crystals, the charge present in water of various types and the charge present in homeopathic and Bach Flower remedies. An instruction manual for procedures and basic operation is included. Order #P04, Price \$1000.00. U.S., Canada and Mexico add shipping and handling of \$12.00; other countries will be billed. California residents add 7% Sales Tax.

PSYCHIC RESEARCH NEWSLETTER SUBSCRIPTION

The PRI Newsletter provides the reader with an update on current research projects, a variety of subtle energy experiments to conduct at home, semi-schedules for Marcel Vogel and associate speakers, book reviews and information on many other interesting topics.

Give yourself and a friend a subscription. The Newsletter is published bimonthly (6 times per year) and the cost of the two year subscription of 12 issues is \$25.00. (Add 10% for addresses outside of the U.S.)

When you order you may request that all the back issues be included (May/June 1984 to present). Your subscription start date will be adjusted so that you will be notified in March 1986 to renew starting with the May/June 1986 issue.

☐ YES! Enclosed is \$25.00 (plus 10% for addresses outside the U.S.) for my two year PRI Newsletter subscription to be sent to the address below.

☐ Start my subscription with the most current issue.

OR ☐ Back date my subscription and start with the _____ back issue.

MARCEL VOGEL'S CRYSTAL KNOWLEDGE WORKBOOK

The Crystal Knowledge Workbook is a composite of fascinating information, exercises and material that have been covered in Marcel's seminars. The price of the August 1985 revised edition is \$30.00 and the Order # is WB2.

- U.S., Canada and Mexico add 10% to order for postage and handling, other countries add 20%.
- California residents add 7% sales tax.

SCIENTIFIC PAPERS

"Cellular Regeneration" and "Structured Water: It's Healing Effects on the Diseased State" are two research proposals, written by Norman D. Mikesell, M.S., for researchers in the field of metabolic and degenerative diseases. The purpose of these papers is to inspire researchers to design experiments using structured water, vitamins and minerals. Although the literature review includes both experimental and clinical data, it is in no way intended as a set of recommendations for the practicing physician or healer. The price of "Cellular Regeneration" is \$30.00 and the Order # is SP-100. The "Structured Water" paper is still in preparation.

"The Effects of Wearing a Quartz Crystal on Measures of Stress Tolerance in Individuals" is written by Dr. Rozanne Bazinet. The price is \$30.00 and the Order # is SP-200.

- U.S., Canada and Mexico add 10% to order for postage and handling, other countries add 20%.
- California residents add 7% sales tax.

ACTITIONERS AND NURSES CREDIT COURSE ON CRYSTAL HEALING

Introduction to the Joy of Living and The Introduction to Crystals and
Crystal Healing is approved for nursing credit in the states of Nevada
and California. The courses are transferable throughout the U.S.
because Nevada is an American Nursing Association approved state. These
courses will enable the practitioner to identify and reduce stress in
life situations. They will be offered in 1986 at Joy Lake.
Contact Alan Morvay, P.O. Box 1328, Reno, NV 89594 [702/323-0378]

Structuring of water Norman Mikesell, whom we have heard from before in these newsletters, is continuing experiments with structured water. We have progressed in our experiments from using quartz polishings to using 0.01% silicic acid and 0.01% silica gel. Although the quartz polishings showed the highest structuring potential, the small particles interfered with the absorption readings on the UV Spectrophotometer. The silicic acid and silica gel were dissolved in distilled water. Measurements of the dielectrical conductivity, pH, oxidation-reduction potential and UV spectrum showed significant changes when this water was charged with a combination of crystal and xenon strobe light. The UV absorption effects persisted after the charged water was demagnetized or boiled. The UV absorption changes were enhanced after Marcel energized the charged silica gel sample. These are the best results we have had to date.

Study of the repeatability of the Omega 4 equipment Jennet Grover [our newest staff addition] and Rich Bell have been testing and experimenting with the abilities of the Omega IV machine. They are working with such elements as chemical salts, metals [silver, copper, antimony, etc.], plus Bach Flower Remedy Essences. There are many variables which need to be either eliminated or stabilized so that the results of the machines can be reproduced. We are pleased with our results at this point, and are now anxious to begin working on the latest available equipment, the Omega V, which has the added ability of transmitting color therapies and more....

THINGS TO PONDER - WAS TEOTIHUACAN A CIRCUIT?

Susan Freeland has done many interesting things in this life. One of the most interesting is her insight and examination of the possibility that the Mayan, and other, ruins may have been circuit boards. Why would she think that? Beyond the obvious similarity of form, the different materials, having different electrical and electronic properties were used in a logical, structured order. What would they have been used for? Interstellar communication? Generators of standing waves in ponds, that were part of a very sophisticated hydro-system, for the production and storage of energy? An energy harmonic device to stabilize or alter earth? Climate control? A laser power generator?

Susan is writing a book about her conjectures. She is looking for an Electronic Engineer who would be willing to go with her to Mexico and do further research.

She is also currently working with a Samurai Master who is suggesting similarities between the Mayan and Bushido discipline. [In this she needs a Japanese Translator who is aware of martial arts and the history of Musahshi's time - 1650's.]

Some of the things that need explaining are the temples with mica layers between materials that in micro-electronics make up component parts. Some buildings may have been resistors, capacitors, transistors, or diodes. The gold that was found was mostly in the form of tubes or screen like shapes that would seem to be equipment rather than decoration. Were the pyrite mirrors possibly laser reflectors or sun

reflectors? When the water levels in the ponds were raised or lowered, do they act as energy collectors, or control the circuit? Why was powdered quartz used in paint for the reflecting pools? There is so much more to be learned. If you are interested in helping or want further information call Susan Freeland, 415/494-2196.

A LETTER FROM JEFF GRIBBLE'S MOTHER. At Joy Lake Jeff was treated in a centia, for chromosome damage which caused a socially withdrawn behavior and general distinterest in life. His picture was a witness and his mother present. The choromosme pairs were individually cut out from the photo micrograph print and radionic rates for each pair were determined. The values were intuitive and were imprinted into the witness and broadcast to the subject. The numbers were recorded and when all of the chromosome pairs were repeated they then were broadcast to Jeff via his photograph. This was videotaped and will be available for purchase or review by interested parties. His mother sent a letter and we have extracted her view of the results of the treatment. She writes, "Jeff was very glad to see me and easily expressed those feelings. He was not usually good at expressing abstractions. He is very easily re-integrating into school life. Quite a different story compared to last year. Two weeks after the broadcasting experience, here are some of the teacher responses." "Jeff must have had a very good summer, a lot of growing up. We were amazed. He is MUCH more cooperative! He has a friend for the first time in his life. Jeff had been able to read short phrases, but got lost in a whole sentence, not being able to connect the flow of thought from beginning to end. Now he seems to understand what he is reading, and he loves to read. It seems to have clicked into place with him! We can't keep him away from books! We are very excited! What medicine is he taking?" Jeff's mother, "I had given them a new medical regime". I knew that they would relate to that. The only thing that he allows to stay in his room are clear, smokey and rosey quartz crystals." She concludes "I will continue to keep breathing my intention and love into him and you."

A SERIES OF VIDEO TAPES ON THE THERAPEUTIC USE OF CRYSTALS and another series on Thought Photography are now becoming available. Tape #1 of the Crystal Series is available at this time.

Please inform us if you are interested in receiving further information as soon as new tapes are available. They are \$49.95 each, plus 10% Shipping - Handling charges and 7% Sales Tax for California Residents. THERAPEUTIC USE OF CRYSTALS NO. 1. In this video Marcel demonstrates the use of the specially cut double terminated quartz crystal, on several subjects with a wide variety of maladies. The latter half of the video tape goes into more detail on the therapeutic techniques using the crystal. A must for the serious student of Marcel's technique.

VOLUNTEERS: The Lab has need of services in the following areas: Research, graphics, editing, typing, clerical, word processing, and grant writing. If you have the time and wish to help, please contact Dick, or Jackie. 408/279-2291

* **NEWSLETTER EXPERIMENTS:** Please complete, and REPORT your findings. This data will help us understand the subtle energies. You will earn free copies of those reports, and will be named in the credits.
